 Department of Public Works

## ★ GUION ROAD BRIDGE OVER GUION CREEK

RebuildIndy is Mayor Greg Ballard's initiative to transform the city through investment in infrastructure improvements to restore deteriorating thoroughfares, residential streets, sidewalks and bridges, as well as address neighborhood drainage and flooding issues and demolish unsalvageable abandoned homes that pose a public safety threat to neighborhoods.

### ★ PROJECT SCOPE

The Indianapolis Department of Public Works (DPW) has completed the rehabilitation of the Guion Road Bridge over Guion Creek on the northwest side of Indianapolis. The three-span reinforced concrete slab structure was originally built in 1965 and had never been repaired or rehabilitated.

Before construction, the bridge was in poor condition. The bridge deck displayed cracks, spalls and pop outs. The curbs and bridge railings had deteriorated and the guardrails, that only extended 15 feet from each end of the bridge, were damaged.

The project improvements included repair to the concrete slab structure and deck drainage holes. Also, the curbs and bridge railings were replaced and new guardrails installed. The exposed reinforcement on the underside of the bridge was patched and repaired.

### PROJECT DETAILS

**PROJECT STATUS:** Complete

**CONSTRUCTION PERIOD:** January to October 2012

**PROJECT COST:** \$311,000

**DESIGN ENGINEER:** American Structurepoint

**PROJECT BENEFITS:**

- Increased commuter and pedestrian safety
- Improved bridge infrastructure

Project schedules and costs are subject to change.
